

PHIOON

Confidence. Balance. Control.

An identity for serious independent traders,
with room for life beyond the charts.

Original, preserved / PHIOON wordmark + Portfolio Weave

The life around the trading.

The product began with a realization: more hours comparing charts did not necessarily lead to better decisions. Pursuing trading goals should leave room for family, attention and a life outside the market.

Confidence

Earn confidence through research, clear assumptions and understandable evidence.

Balance

Treat strategies as parts of a portfolio, and trading as one part of a full life.

Control

Support deliberate rules and considered decisions with disciplined systems.

AUDIENCE

Serious independent traders.

CHARACTER

Restrained. Precise. Timeless. Approachable.

One identity. Four useful layouts.

PRIMARY / horizontal

WORDMARK / narrow headers

SYMBOL

STACKED / centered spaces

Lead with the horizontal logo. Use the stacked version for covers and centered compositions. The symbol can stand alone in an app icon or an established brand context.

The wordmark preserves the original PHIOON outlines. Use the supplied paths rather than a substitute font.

Give the signature room.

The supplied artwork already includes a minimum clear-space frame. Preserve that space when placing the logo next to text, controls or image edges.

u = 40 design units

The symbol is 185.64 units high; the wordmark is 184. The gap is 92 units (2.3u). The canvas is approximately 1493.15 x 265.64 units.

Keep the relationship fixed

The weave is reduced from the selected study and aligned to the capitals. Preserve its size, the original letter spacing and both O cuts.

Exact curves and letter outlines are stored in the SVG files. No installed font is required.

Small sizes need deliberate choices.

Digital minimums below refer to the full exported canvas, including its clear space. Switch layouts when space gets tight.

Horizontal / 220 px minimum

PHIOON

Wordmark / 170 px minimum

App icons

16 px

24 px

32 px

48 px

64 px

Optical small-size symbol

Use the wider-cut symbol below 48 px. The 16, 24 and 32 px icon files already use it. At 48 px and above, use the standard symbol.

Stacked logo: 220 px minimum. For print, begin at 45 mm horizontal width, 35 mm stacked width or 10 mm symbol width, then proof on the intended stock.

Checked on rendered digital proofs. Physical print proofs are not included.

Calm, precise and readable.

 Deep teal #007F78 Symbol and brand accents	 Ink #10252B Primary text and mono logo	 Warm paper #F5F4EF Primary light surface
 Deep navy #071C22 Dark surfaces	 Historical petrol #3A5966 Original O accent in the color logo	 Aqua #34D6BB Restrained accents on navy

Text contrast on the intended surfaces

Ink / paper 14.43:1
Slate / paper 5.49:1

Text teal / paper 5.64:1
Aqua / navy 9.58:1

Text teal #006D67 and slate #52666B support small copy. Deep teal / paper is 4.43:1; use it for the logo and suitable large accents. Pair information with labels.

A signature, supported by a system.

PHIOON

CUSTOM LOGO LETTERING

The wordmark uses original PHIOON vector paths. Preserve the thin strokes, rounded capitals and circular cut O forms. No logo font is required.

Manrope

Clear thinking, considered action.

Aa Bb Cc 0123456789

HEADINGS / INTERFACE / BODY

Use 500 or 600 for headings and controls; 400 for reading. Keep paragraphs open and calm. Suggested web body size: 16 px with 24 px line height.

IBM Plex Mono

0123456789 + / - 0.00%

RUN 024 / SCENARIO A

NUMBERS / RESEARCH METADATA

Use sparingly for aligned numeric values, run IDs and methodology labels. It supports the research character without making every surface feel technical.

Original font files and SIL Open Font License texts are included in /fonts.

Earn confidence. Explain the evidence.

Speak to a capable person making a considered decision. Be clear about what was tested, what the result suggests and what remains uncertain.

Clear	Name the strategy, period and assumptions.	"Review outcomes under these assumptions."
-------	--	--

Measured	Describe ranges and evidence, not certainty.	"The evidence is inconclusive for this period."
----------	--	---

Human	Connect useful control with time and attention.	"Keep your rules clear and your priorities in view."
-------	---	--

PROPOSED BRAND LINE / editorial option

Trade with clarity. Live in balance.

The identity in context.

Illustrative brand applications. These are not live product screens.

Website / generous space and restrained emphasis

Research / evidence takes priority

Research copy must match released capabilities. Saving research is distinct from authorizing live execution. Automation supports discipline; it is not a promise of investment success.

Protect the quiet confidence.

01 Keep the proportions

Use the supplied layouts and their built-in clear space.

02 Use a clear background

Choose the color logo on light surfaces and the white logo on navy.

03 Preserve the letterforms

Keep the original capitals, thin weight, O cuts and internal letter spacing.

04 Keep the artwork flat

Do not add shadows, gradients, outlines or dimensional effects.

05 Choose the right scale

Switch to the wordmark or optical symbol when space is limited.

06 Let meaning lead

Avoid decorative market arrows or claims of guaranteed returns.

Write the brand as "PHIOON" in the logo and public-facing copy for a consistent name presentation.

Ready for implementation.

/svg	Outlined horizontal, stacked, wordmark and symbol masters; color, ink, black and white.
/png	Transparent exports, plus clearly named light and dark background previews.
/icons	Optical favicon, multi-size ICO, app icon SVG, and PNGs from 16 to 512 px.
/fonts	Manrope variable font and IBM Plex Mono, with their original license texts.
/docs	Usage instructions and verification notes. CSS tokens and geometry are at the root.

Production notes

The wordmark retains the original PHIOON vector outlines; the weave comes from the selected Mishkal identity. Only the logo arrangement was refined. Logos have no font dependency. Physical print and CMYK matching require a proof.

Direction 01, Original preserved, is carried forward with a smaller weave and wider gap. The supporting system continues the prior brand kit. Website illustrations are examples; no product or deployment files were changed.
